LETTER OF SUPPORT TO PROJECT LEOGEN

14th of April 2022, Finland

Dear UK Kennel Club,

The board of the Leonberger Club of Finland fully recognizes the danger of genetic erosion within our breed and the threat that this poses to the health and longevity of future generations of Leonbergers worldwide. We are very encouraged to see that a proposal is now being put forward to address this pressing issue. We have read all the information given to us and see that this is the only way to keep the Leonberger breed alive in the future.

The board of the Leonberger Club of Finland fully supports the Leogen proposal, and we look forward to finding a way to cooperate in making it a success.

Sanna Roste-Torniainen
President
The Leonberger Club of Finland
