Club Suisse du Leonberg

Bern, 22.3.2022

The members of the Swiss Leonberger Club have recognised the threat of diminishing genetic diversity within our breed for many years and we are very pleased to see that this problem, which is shared by the entire Leonberger world, will now potentially be addressed by this new LEOGEN initiative.

In our annual meeting we had an intensive discussion with our members and breeders about the LEOGEN project.

We recognise that this project is necessary to the future health and vitality of the breed and we support its aims and objectives.

Daniela Lutz

President of the Swiss Leonberger Club SLC
